An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bill Lacy on 10/7/04.

The application has been amended as follows:

In claim 1 after "core" insert --- of a center and optional outer core layer ---.

In claim 1 line 2 delete "solid core " and insert --- center ---.

Cancel claims 32-35.

The following is an examiner's statement of reasons for allowance:

The nonwound limitation avoids Kato's wound ball. Maruko exemplifies plasticized rubber/urethane compositions in an intermediate layer. This could also be termed an "outer core layer". The claims now require the center to be of the specified composition. The canceled claims would have likely required rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
